Customer review

I am happy I received the set in excellent shape (code 269/magic). While I have not been able to test it as I could

not hang the wallbar yet, all the parts of the set seem to be of an even higher quality than I expected!

I am glad that I found and ordered this set when I did!

Thank you for your assistance during the process of ordering.

Geoffrey

Had awful service from the courier who was meant to deliver these bars but great service from Artimex. When the courier managed to lose them (!), they arranged to deliver them, themselves from Romania and built them in my gym.

The bars themselves are of great quality and well worth the money despite being the cheapest on the market I could find.

Highly recommend the bars and the company.

Mark.

The wall bars are great (code 221). They did not come with any fitting instructions but we were able to work out how to fix them. Very good quality and good value for money.

Just to thank you for excellent service.

Dear Tautu Florin,

Thank you for the quick delivery which arrived today. However I was not allowed to pay the delivery man; he said that the order had not been given to receive a cash payment. I did accept the package and will await your invoice with Iban and invoice number so I can pay as soon as possible.
Best regards, T. Sattar

Hi Florin and Jeff,

Finally found time to email a few pictures and thank you.

You all were amazing and the product delivered faster than most American companies could do. Also the personal service was impeccable and the custom adjustments.
